Forward motion, frame me in
So much insulation, false accusations
If I could
No apologies, excuses
This is just to be expected
As it should

Alterations so implied
These suggestions just annoy
As they should
Double meanings get unnoticed
He says, just stay focused
If you would

Why don't you give me
Give me some trouble
I'm not gonna give you
Give you what you asked for

Second standing, seems inflated
Can't avoid it, can't contain it
Who could?
Too bored and no way around
Can't control suppress it down
Who could?
