Turn your back  
Catch it, Catch it -Fast  
Turn your back  
Scratch it, Scratch it - Now  
Turn your back  
Cut it, Cut it - Out  
Turn your back  
Shut it, Shut it - Up

Falling forward on your face  
Do you ever feel misplaced  
You can't find it cuz you lost it  
You can't see it cuz you crossed it  
All these words,  
They sound the same  
In the end a losing game  
Slowing up and speeding down  
I'm out of time, I'm out of tune  
Parking lots filled with cars  
Sirens ringing in your ears

Get the point get out of here  
Turn your back, Heart attack

You sleep in a house,  
With built in stairs  
You're a corporate champion,  
But no one cares  
Tie your shoes so you don't trip  
I can't go out, I think I'm sick  
The clock stopped ticking long ago  
I read it in the paper don't you know  
Could've been me  
Could've been you  
Ne ne ne Ne ne ne  
Tapping tables in four ways  
Obstructing habits with your gaze  
Might as well slip away  
Turn your back, I'll attack
