This is how we'll live it while we're young
Chasing dreams in the December sun
Now or never's here, no regret or fear
We're driving North until the ocean's clear

Yeah you know that I know, you know that we've got it
now
So hit the lights and let the sun go down
Whoa whoa and let's go

Tonight we're alive and we find ourselves here
So lets rip the stars from the atmosphere
Get your hands in the air and we'll catch the moonlight
This is the moment we find our lives
Whoa whoa whoa

Roll the dice and we'll risk it all
My heart is saying chase the waterfall oh
Keep your fingers crossed, you'll be better of
So make a wish and kiss the sun for love

Yeah you know that I know, you know that we've got it
now
We got it Honey when we left that town
Whoa whoa let's go

Tonight we're alive and we find ourselves here
So lets rip the stars from the atmosphere
Get your hands in the air and we'll catch the moonlight
This is the moment we find our lives
Whoa whoa whoa

Light the fire we're alive and it's Summer
Grab her hand tell your girl that you love her
I can see by the way that she moves oh, she feels the
same
There's no time for the past so just let go
Breathe in deep this is it and the world knows
You can look to the sky and you know that, you're not
alone

Tonight we're alive and we find ourselves here

So lets rip the stars from the atmosphere

Tonight we're alive and we find ourselves here

So lets rip the stars from the atmosphere

Get your hands in the air and we'll catch the moonlight

This is the moment we find our lives
