Black stone and scent of death  
Glistening red Â– the dripping altar  
A cursed flame licks the dreamworld's void  
To radiant halo's forever culling

Algol...

Stellar scars seep madness from horrors  
Corruptive finality in black vaults of a Death God

Algol...

Chaos sheathed in the light of destruction  
Eclipsing worlds now demonized  
Extending it's grasp Â– a doomwing of shadow  
Seditious consort of primordial depths

Death...

Death...

Algol...
