Silence was broken by whist ov the knife  
Darkness is soaking flash ov her life  
She's getting cold in tarnished light  
I'm burying body under the veil ov night

Flying up the smoke ov her breath  
Like a bird in the dark  
Growing stronger inner stress  
Breaking my heavy sigh

I shall capture U like a sea  
Storming in a beautiful day  
And I'll bite your lips goodbye  
All your red would be sprayed

Shadows are moving  
Shadows are moving on beautiful face  
Shadows are living...

Drowning down into the full moon  
Where all reflections are real  
Damned by the stars I'll kill you soon  
Mystery must be unsealed

Be gone among old autumn leaves  
Black butterfly's kissing your skin  
I rape white flesh with silver blade  
To release woman's beauty and sin!

Mask on! Tonight I love - you die! It got dark!
