Get up, get up
Get up, get up
Get up, get up
Get up, get up

Yo, we all know every minute longer that you remain in
the sheets
You're giving a lit up Olympic torch to your
competition to beat ya
No buts or ums cuz that ain't fun
Finally hear your feet knockin' on the floor of your
room
Now learn a new task, become a maven
Give it a couple weeks of training, you just need
dedication
I'm who moves the roosters from the coop to get you
up and at 'em
Saturday morning doing shit you couldn't ever
fathom
You got ideas then do something
Instead of worrying 'bout who the fuck is looking, just
keep it moving
So my brothers and my sisters, everyone in the fam
Can be bold, stand out and yell "Fuck the plan!"

Don't give it up, give it up if you put it down
I can do this 'til I'm dead's how it should sound
If you're pressin' snooze, you 'bout to lose
Cuz I'mma bust down the door, open up my mouth
and start yellin' to ya

Get up
Get out of bed and step up
Just live above and stick out
Cuz we got your back
Yea, cuz we got you

Get up
Get out of bed and step up
Just live above and stick out
Cuz we got your back
Yea, cuz we got you

Ten eighties came in and greatly increased my
productivity
Give me a reason you ain't trying that yourself,
bro
You gotta be kidding me
Mathletes, track meets, artsy girls all bumpin' this
song
Fuck yo clique if you think this shit won't stick, you
happen to be wrong
I'm comin' up on that dream while you watch TV
You were born with the power so why not succeed?
I wasn't built in a day, yea you better believe
Even on stilts you don't look down on me
Erase the boundaries, put by yourself
Step out the comfort zone, it's for your health
Without asking, the answer's no
It's the fam that can hand you the plan to own

Don't give it up, give it up if you put it down
I can do this 'til I'm dead's how it should sound
If you're pressin' snooze, you 'bout to lose
Cuz I'm bust down the door, open up my mouth
and start yellin' to ya

Get up
Get out of bed and step up
Just live above and stick out
Cuz we got your back
Yea, cuz we got you

Get up
Get out of bed and step up
Just live above and stick out
Cuz we got your back
Yea, cuz we got you
