Inside our senses  
Inner perception  
Blinding our minds to unmask reality  
Source of damnation  
Religious poison  
Destiny of mankind  
That turned our future to dust

Gods of the past  
I invoke the secrets unveiled  
Show me your sacred, strong evil inside  
I will sacrifice my soul to the oriental wind

I saw the past in the gleam of the light  
Shadows of the gods that brought knowledge to our  
kind  
Insanity brought to our time  
Instead of greatness and might

Ancestral signs in our mind  
Unconscious souls, we are lost in the dust  
We are lost

I saw the past in the gleam of the light  
Shadows of the gods that brought knowledge to our  
kind  
Falling from the stars  
Launching fire in the sky

I drink the blood of the almighty one  
I feel the power of the angel inside  
Praying to be the chosen one  
Who will bring light to my kind
