Wish maker, did you said my name?
I am the power I can beat your faith,
A story teller, a walker behind,
Finding the weakness of all human kind.

Bridge:

Time after time he's been trapped by his fears,
How many years have to past to be free?

So you are tired, of running around,
Give me a star and I'll bring what you want.
Don't be confused that I am going behind,
Just break the charm and I'll show you the fire.

Bridge:

Time after time he's been trapped by his fears,
How many years have to past to be free?

Chorus:

Come on release me,
I am the strength of you heart,
Come on unleash me,
I got the best, but I'm still lonely.

Bridge:

Time after time he's been trapped by his fears,
How many years have to past to be free?

Chorus:

Come on release me,
I am the strength of you heart,
Come on unleash me,
I got the best, but I'm still lonely.
