I wake up every morning around a quarter past eight
grab the stick and go out to skate Hopefully I wont
be late, tonight's the night of my very first date
she's a pretty one hope she likes lots of fun even
though I may look like a bum I really don't care she
says she likes the clothes I wear and the way I do
my hair if not I still wouldn't care Ch.

Because this is my first time but its definitely not
the last time ill go on a date But if so Live to love,
love to live, live to skate.

Tell all your friends not to skater hate I guess this
is the first time they've seen a kid who skates go
on a Date but later they'll appreciate the way I treated
you,. Hey maybe ill teach her to skate.

Ch because this is my first time but its definitely
not the last time ill go on a date but if so I live
to love, love to live, live to skate.
