Where the dark lands rose like grey clouds and their  
towers were cold and dark,  
There were no man's fate could ever reach the Sun, a  
demon travelled  
Out of life searching for the lost dreams  
The clouds are writhing in the flow of some great fire,  
as the demon  
Travelled beyond the void and beyond the void and  
beyond the lands of the eternal deeps  
There the Phantom Lord dreams alone in the dark,  
surrounded by creatures dancing insanelly for him!

I wait for I shall share with him the ancient wisdom, the  
ancient pain!

Frightening ghouls, mysterious births of Alchemy, they  
ride the wind, crawling around the Lords of Chaos  
The ruins of their trespassing are not forgotten, for  
they brought sorrow to the Earth and created a hill of  
ancient dust  
His name was praised with psalms that echoed deep  
into the night  
The God was finally awake as was written long ago  
The flying Lord then spread his wings and dove into  
the dark and so the Earth will be possessed and she  
will never see the Sun!

I wait for I shall share with him the ancient wisdom, the  
ancient pain!

"Is this thy decision... To walk the rainbow no man hath  
walked?  
It will cause a Pandemonium on Earth!"  
"No man shall know my name or where I cometh  
from..."

Haunt the illusions of the wind and dream...  
Hold the planets in your arms and scream!  
Release the creatures in the wind of night...  
Release your powers and your storm with hate!

Spread your force Nyarlathothep: Invoke the spirits of

the dead...

The night of a thousand stars!

Walk the rainbow no man has walked and bring the  
hearts of endless moons... your highest desire!

Hear the voices of a thousand souls: Invoke the demon  
and the ghosts to enter the gates of sadness

Hold the torch and walk beyond, you are the Amorphus  
creature Lord...

A Demon of a dark millenium...

Reflections...
