In the night I see? Shadows coming close to me
Dreams of ecstasy? Leading my thoughts
Mystic ways of life? I share
The calling of four winds? Caress my flesh

Those who see look through my eyes
I am made to live and made to rule
I am a sorcerer of a golden age
Of knowledge and black arts
I freeze the Moon of a cursed dark night
Like shining aeons from frigid deeps
I am immortal
I never die

Gods!

We are masters...
We take your force and live forever...
We are masters...
We bring the dark millenium back and rule...
The light...
The light has eclipsed my soul...
We will return...
We will return as the glorious race...
Disaster...
Disaster no man has ever seen...
We are immortals...
The ancient cult for few to live...
