Oh lover  
Can you hear me  
I've been thinking 'bout you night and day  
And Jesus,  
Want you near me  
Well I want to hear what you got to say  
Got my exit neatly laid out  
But I'm not sure what I'm afraid of  
And daddy won't you help me get back home

It's like waking  
From a bad dream  
And the hero is just not what he seemed  
Can't see my reflection  
Just a shadow where I should have been  
Can't find reason  
And reasons won't make any rhymes  
And daddy won't you help me get back home  
I think I just might need to get back home

Take your time  
You will know  
Shake it loose and let it go  
Take your time  
You will know  
Shake it loose and let it go  
Take your time  
You will know  
Shake it loose and let it go  
Take you time  
You will know  
Shake it loose and let it go
