At the end of the day can you honestly say  
That you're living your life to the limit  
Are you smelling the flowers and spending the hours  
Thankful for every minute  
A wise woman said "don't forget to have fun"  
This is prime-time baby not a re-run  
You never know when you're gonna' go  
So you might as well have fun while you're at it

Did you take that trip, did you skinny dip  
It's never too late to go for a skate  
Did you climb the Eiffel tower, float down the Nile  
Did you wake each morning with a big, fat smile  
Did you surround yourself with those you love  
Spend some time with the stars above  
Life is short; it's a game of sport  
And you might as well have fun while you're at it

Fun, fun, fun, it's good to have fun, fun, fun, you gotta'  
have fun, fun, fun?

In every way, seize the day  
Or as the Romans say "carpe diem"  
It's an attitude reversal this is not a dress rehearsal  
It's a sold-out theatrical season  
Go out on that stage, take a bow  
Forget about the future your moment is now  
You can choose what you want to do  
So you might as well have fun while you're at it
