We're running around
And looking for path to paradise,
But some things don't want to be found
You've got to feel pain
To undersand all the goods of life
We need sun much more when it rains

The're is nowhere to run,
It is the perfect world
I want to see some action in my life,
It makes me feel alive

You want to know,
What happens on every move you make
That way you just can't be free
I need something real,
Exciting and little bit dangerous
This world is heaven for me
