Yeah,yeah,yeah,yeah
Let it go
Oh,yeah
Let it go
Oh,yeah
Everyone can tell you stories of
How it's like
When everything goes wrong
I can tell
You're not the only
Every moment has it's history
Good or bad
It always has to be
And for now
And for now
You're feelin' lonely
It's always hard to hear the truth
But you should
Let it go(Let it go)
You're so young and strong
Let it go(Let it go)
Makin' right right out of the wrong
It's not that easy
Girl I know
I can see the troubles in your eyes
I can read
The thoughts within your mind
And I know
Yes,I know
There's lot of sorrow
But like sun comes after storm and rain
Brighter days
Of joy will come your way
Just you wait
Just you wait
Until tomorrow
It's always hard to hear the truth
But you should
Let it go(Let it go)
You're so young and strong
Let it go(Let it go)

Makin' right right out of the wrong
It's not that easy
Girl I know
So let it go
You're so young and strong
Let it go
Makin' right right out of the wrong
It's not that easy
Girl I know, I know, I know, I know
I can see the troubles in your eyes
I can read
The thoughts within your mind
It's not that easy
Girl I know
Let it go(Let it go)
You're so young and strong
Let it go(Let it go)
Makin' right right out of the wrong
It's not that easy
Girl I know
I can see the troubles in your eyes
