Kill me now  
Pain grows inside  
Carnal damnation arise  
Devotion untunes my mind

As I step towards the light of deception  
My heartbeat finds its pace  
To be held high and burned again

The beguiling song of Babylon  
Calms my mind to a state of enthralment  
Gods to the sky, grown men will cry  
No more will we suffer from this threat of indignation

The deepest thoughts, for the strongest minds  
My hollowed soul, marked with the sign of lies  
Salvation's the key, to a mutual waste of time  
Lionize them all, they'll bring some sunshine in to  
sacrifice us all

The names have been written on the wall, to stand  
there forever  
Fabrication has deceived us all

The beguiling song of Babylon  
Calms my mind to a state of enthralment  
Gods to the sky, grown men will cry  
No more will we suffer from this threat of indignation

But still we're standing,  
Reaching out helpless, trying to embrace the sky  
Rejection of time  
Just a quicker path on the big road to die

Dissection of the fate draped red in blood  
The darkness will speak the truth again  
Finding out that there's nothing left inside  
Waiting, 'cause the promises were made

Lightning strikes hard, your time has come  
Bury your lies, better not to be found no more  
Mysteries lie now ten feet below ground

Let this be your place where you die

Your misinterpretations die with you  
A whole population wiped out  
No end to the bloodstreams that will flow  
From your faith, from your hearts, from your  
misrepresented minds

Hollow grounds!
