Oooooh ooh ooooo yeah
How 'bout we try something different tonight?
Tonight
Oh and make all your fantasies issues imagine come to
life, to life

Let's play hide and seek, cross the galaxy, let's touch
the mily way
While my arms are around you,
If we disconnect you know what to do
(Cuz I can't lose you) I gotta be outta my mind if I think
I'll find
Another like you, you, you
Because I'm in love with an angel
I found the diamond in you, you, you, you, you

And we can spell out your name with the stars so when
we're apart
I find my way back to your heart
We can spell out your name with the stars if I wander
too far
Love is gonna lead me back home, home, to you

Throw me a shadow just get to the moon
As long as we're together do what we wanna do
We can take our time while the comets see us from a
different view
But there's nothing to, we're out of sight

Let's play hide and seek, cross the galaxy, let's touch
the mily way
While my arms are around you,
If we disconnect you know what to do
(Cuz I can't lose you) I gotta be outta my mind if I think
I'll find
Another like you, you, you
Because I'm in love with an angel
I found the diamond in you, you, you, you, you

And we can spell out your name with the stars so when
we're apart
I find my way back to your heart

We can spell out your name with the stars if I wander
too far
Love is gonna lead me back home, home, to you

Thought about it and I decided I can't leave your sight
No tomorrow, not today
And no matter where we are, when we're near, apart
I'll do what I can, not to let you get away

I'll leave you ne-e-ever, ne-e-ever,
meet you here just like the Earth meets the Sun
I'll leave you ne-e-ever,
ne-e-ever as long as the stars are shining bright
I need you in my life

I gotta be outta my mind if I think I'll find
Another like you, you, you
Because I'm in love with an angel
I found the diamond in you, you, you, you, you

And we can spell out your name with the stars so when
we're apart
I find my way back to your heart
We can spell out your name with the stars if I wander
too far
Love is gonna lead me back home, home, to you.
