1. Strophe

Don't try to tell me what's O.K. and what's not right
What's average or bad chosen style behaviour
What's not good enough for you and what's the matter
Please shut up girl and let me get better

Pre-Refrain

Yeah, sometimes it's the only thing you're good for
And I know it ain't right to love you for
But I know you like it

Refrain

Perverted little chick-like horny mother ... mhhm

2. Strophe

Don't need to tell me that you love me and your serious
cause
That your love is guaranteed whilst I pay the prize
That I'm good enough for you and I should know why
Please shut up girl and let me gear up

Bridge

Maybe it's O.K and alright or whatever
We were born to love each other
You may think about me what you want
But please shut up girl and let me get you a fuck

Refrain

Perverted little chick-like horny mother - yeah
Perverted little chick-like horny mother ...yeah
