"This Is Why I Can't Sleep"

Where is there love left inside you
Where does the warmth go
Up in the air or behind you
Is it a magic show

That does it sleep like beside you,
The furnace, the smell of your clothes,
The smiling, desiring, as deep as your eyes,
I wonder how deep you can go,

When you're in love
Oh well, you're in love

When you're in love
Too bad you're in love

When you're in love
Oh well, you're in love
When you're in love
Too bad you're in love

Lying here hating to miss you
How cold is your side of the bed
I toss and I turn and I know what I want
Is you to get out of my head
