The Cherusker horde assembled
Unde the banner of the Teutonic Hammer
Beneath a vibrant storm
Teutoburg forest reddened with blood
And Valkyries made their descent
Laying their claim to the glorious dead
Barbarian forces engaged in the strife
Giving their lives for the sake of their trive
Three days of bloodshed
Three leigions crushed by the hammer of Donar
The spear of Wotan lent no mercy
And Varus fell upon his own sword
By the Hammer of Donar
By the Spear of Wotan
Arminius in triumph
Herrlichkeit zum gefallenen!
