It's 6 a.m. 300 miles to go
Watchin ' the sun come up after the show
It's been 2 years and I've never felt more at home

Said were talking to a king about the things taht make
us tick
That'S rhythm & blues good friends and beat that kicks
We were givin' a choice and this is what we pick

If it's 300 miles to the next damn show
Then it's 300 miles till I see my soul
The stage is what we claim cuz this is more then just a
game
So watch us go, just watch us go

Been batting round the minor leagues just long enough
to know
That if you wanna hit the big show you gotta rock um
head to be
And will never look back, never look back cuz we know

It's 6 a.m. 300 miles to go
Watchin ' the sun come up after the show
It's been 2 years and I've never felt more at home

If it's 300 miles to the next damn show
Then it's 300 miles till I see my soul
The stage is what we claim cuz this is more then just a
game
So watch us go, just watch us go
