Iâ€™ve been searchinâ€™, Iâ€™ve been lookinâ€™, in the  
darkness  
Youâ€™ve been waiting, Youâ€™ve been hiding, in the  
darkness

Dance with me and youâ€™ll discover - thereâ€™s nothing  
left to fear  
Far from the light, redemption finds us here - yes,  
here

I will find you, I will find you in the darkness  
I will hold you, I will hold you in the darkness  
Under the lights, the music plays on - We leave the  
world behind  
Stay with me, and hold forever the magic that weâ€™ll  
find

Chorus:  
And the spinning ball turned and the lights brightly  
flashed  
So our heartsâ€™ fire burned and the people they  
danced, so  
Weâ€™ll lift ourselves up while our hearts come alive  
And our lives are redeemed when I kiss you tonight -  
Tonight

I will love you, I will love you, in the darkness  
Weâ€™ll surrender, To forever in the darkness

Open your eyes, youâ€™ll find me waiting - Iâ€™ll keep you  
safe from harm  
All that you have ever needed is waiting in my arms

Chorus:  
Weâ€™ll be feeling it soon as the music plays on  
And weâ€™re hearing the tune that will soon be our song  
now  
The dancing begins and weâ€™re feeling the flow  
Iâ€™ll be taking your hand and Iâ€™m not letting go -  
Wonâ€™t let go

Down on my knees in the night

Prayin' for hope, for the light now  
Freeing ourselves to love just as we want

Open your eyes, you'll find me waiting - You'll be  
safe from harm  
All that you have ever needed is waiting in my arms

And the spinning ball turned and the lights brightly  
flashed  
So our hearts' fire burned and the people they  
danced

Chorus:  
And the spinning ball turned and the lights brightly  
flashed  
So our hearts' fire burned and the people they  
danced, so  
We'll lift ourselves up while our hearts come alive  
And our lives are redeemed when I kiss you tonight

Chorus:  
Let the music play on, and we're hearing the tune  
That will soon be our song now  
The dancing begins and we're feeling the flow  
I'll be taking your hand and I'm not letting go -  
Won't let go
