One dance, oo one dance yeah
One night, oo oo yeah yeah
One dance, oo one dance yeah
One night, oo oo yeah yeah

My heart's been sinkin' down
From what I'm thinkin' now
I catch your eye and that starts the achin'
But what I'm feelin' here
And what I think I fear
Don't mean as much as the steps were takin'

Now waitin's killin' me
Desire's fillin' me
I try to run but I'll soon surrender
And though my hands are cold
My heart's becomin' bold
I head your way for a new adventure

Momma always said, "You can't let dreams die"
Please just tell me yes and make my soul fly
Father always said, "You can't just stand there"
Live, just go ahead and do what you dare

Chorus:

One dance, one question
One chance, to mention
One night to find our lives' ascension
Just say, you're willin'
You'll find, it's thrillin'
One dance to free our inhibitions
One dance unfolds to
One chance to hold you
One night, to feel your arms around me
Just move, it's easy
Just groove, and free me
Please just let me have one dance

My heart is racin' strong
And I've been pacin' long
It seems so hard just to talk so clever
Forgive my awkward ways

My words absurd and crazed
Please understand Iâ€™m not like this ever

Momma always said, â€œDonâ€™t let your dreams dieâ€
Please just tell me yes, Make my soul fly
Father always said, â€œDonâ€™t you just stand thereâ€
Live, just go ahead - Do what you dare

Chorus
One dance, oo one dance yeah
One night oo oo yeah yeah
One dance, oo one dance yeah
One night oo yeah yeah

Can I find love in the shadows and light
Mirrors can hide the grand illusions
Can dreams come true in the darkness of night
And could you be my one solution

Chorus
One dance, oo one dance yeah
One night oo oo yeah yeah
One dance, oo one dance yeah
One night oo yeah
