Ride ride when you're lonely inside  
Ride high til you're feeling alright  
Don't hide what you're needin' tonight  
Ride 'til you can ride no longer

Life is crazy, you ain't free to be  
All the things that you can be  
Fenced in when the world don't understand  
You just want to break free

Find a way to claim, freedom from your pain  
Climb on up - and let's go, let's go so

Ride ride when you're lonely inside  
Ride high til you're feeling alright  
Don't hide what you're needin' tonight  
Life's insane, grab the reigns, til you see the light

Life's fine when you're thinkin' just right  
Don't mind, if it ain't worth a fight  
Take time - get it clear outta sight  
Don't be fooled, just be cool - and ride into the night

Life is heavy, you ain't free to see  
All the things that you can see  
Gotta take your chance to steal away  
It's your time to break free

Life can be a shame, gallop from the flames  
Climb on up - and let's go, let's go, so

Ride ride when you're lonely inside  
Ride high til you're feeling alright  
Don't hide what you're needin' tonight  
Life's insane, grab the reigns, til you see the light

Life's fine when you're thinkin' just right  
Don't mind, if it ain't worth a fight  
Take time - get it clear outta sight  
Don't be fooled, just be cool - and ride into the

Giddy up, giddy up, giddy up now

Giddy up, giddy up, giddy up now  
Giddy up, giddy up, giddy up now  
Ride until you're feelin' stronger

Giddy up, giddy up, giddy up now  
Giddy up, giddy up, giddy up now  
Giddy up, giddy up, giddy up now  
Ride 'til you can ride no longer
