And when the sun goes down I see  
Something comes up inside of me  
All that you're hiding in the light - Leave it behind  
And when the moonlight starts to rise  
All of the wonders we will find  
Don't fear the dark, you can be brave - Don't be  
afraid

You can hold my hand tonight if you want  
I will be the one who's strong, so

Chorus:

Run - Run to the night, forever  
Fly - Fly to the highest Heaven  
Dream - Dream of the stars and we'll  
Run to the night once again, Run to the night once  
again

All of the monsters in your dreams  
Don't matter much - know what I mean  
Don't close your eyes, enjoy the ride - Just be alive

I will hold your hand tonight if you want  
I will be the one who's standing strong, so

Chorus

Don't be afraid - The night won't hurt you baby  
Don't be afraid - Of things you can't see  
Don't be afraid - A leap of faith will save you  
Don't be afraid - trust me

You will understand in time - in time  
Night will never leave us blind - oh no no  
Darkness shows us how to find our light  
Feel the power inside - look inside, so

Chorus

Chorus

Don't be afraid - The night won't hurt you baby

Don't be afraid - Of things you can't see  
Don't be afraid - A leap of faith will save you  
Don't be afraid - trust me
