Love is an animal – savage and wild
Why is your love in a cage?

Deep in the jungle it lies
A secret black as the skies
You cannot see it - You'd never dream it
Feel the beat of animal instinct - Feel the beat of
savage love
Deep in my heart feel the rage
A beast that's locked in a cage
Can what is savage undo the damage
Feel the beat of animal instinct - Feel the beat, it's
savage love

Darkness unfolds - the shadows of night
Flames call your name – Your eyes come in sight
Drums fill the air as they roar at the view
Beasts come to feast in our love, me and you

Chorus:
It's savage - It's what you're doing to me
It's savage - The power rips right through me
Danger is lurking in with each simple move
Safety is there in my love – my savage love for you
I know you - What you'll discover baby
I'll show you - Here in the jungle baby
Beasts of desire - The rites of love are damaged
Burned in the fire - It's savage love

So what is love if not free
It's natural chemistry
The jungle's freedom was born in Eden
Feel the beat of animal instinct - Feel the beat of
savage love
So put away all the rules
The trappings made just for fools
The world can't hide you from what's inside you
Feel the beat of animal instinct - Feel the beat, it's
savage love

Lions and tigers draw into our lair
Wolves stalk our scent – They sense that you're

there
Birds fill the air as they spy and they see
Wild and unbridled our love, you and me

Chorus:

It's savage - It's what you're doing to me
It's savage - The power rips right through me
Peril surrounds you with each path you choose
Freedom is there in my love - my savage love for you
I know you - What you'll discover baby
I'll show you - Here in the jungle baby
Beasts of desire - The rites of love are damaged
Burned in the fire - It's savage love

All jungle creatures, finders and seekers, know that
love roams free
It's sacred and mystic, it's animalistic rage
So why is your love caged?

Chorus:

It's savage - It's what you're doing to me
It's savage - The power rips right through me
Danger is lurking with each simple move
Safety is there in my love - my savage love for you
Savage - It's what you're doing to me
Savage - The power rips right through me
Peril surrounds you with each path you choose
Freedom is there in my love - my savage love for you

What you'll discover baby - Here in the jungle baby
Beasts of desire - The rites of love are damaged
Burned in the fire - It's savage love
