And we stand united - So many sounds, but just one
song

And we stand together - So many lives, one family
strong

Though we may be broken - We may be hurt, but we
have no fear

The past is the past now - We searched for our way,
and we found it here

With so many hearts all filling the streets
Together in time, one rhythm, one beat
It flows through us all, so answer the call
United and free

Chorus:

And we are strong now - cuz we're united and free
Oh yes we're strong now - cuz we're united and
free

No need to worry - 'bout what tomorrow may bring
Drying our tears and facing our fears, we're
Strong now - cuz we're united and free
So hear our song now - and live the lives we can lead
And all together - we'll stand as one, you will see
Spirit provides, the truth will arrive

United and free
It's everything that we need
We live united and free
We stand united
We live united and free
We live for you and for me
Cuz we're united and free
We stand united, yeah, yeah, yeah

When darkness surrounds you - We will be here, rise
like the sun

And no one will hurt you - Our lives are reborn, the
world will be one

All brothers and sisters - A shoulder to cry on, hearts
that will care

The tears they will dry now - Just reach out your hand,
and I will be there

Take courage and be all you ever dreamed
And find that the world is not as it seemed
We'll shout it out loud - unwavering, proud
United and free

Chorus

We stand united and free
It's everything that we need
We live united and free
We stand united
We live united and free
We live for you and for me
Cuz we're united and free
We stand united, Yeah, yeah, yeah

With so many hearts all filling the streets
Together in time, one rhythm, one beat
It flows through us all, so answer the call
United and free

Chorus

We stand united -Yeah, yeah, yeah
We stand united -Yeah, yeah, yeah
