### 1st Verse:

How can I sleep when she's not here with me  
All I do is dream and hope that maybe she will see  
So why do I waste my time  
Begging her to change her mind  
But I can't leave the past behind  
Because true love is too hard to find

### Chorus:

Because I love that girl and everything about her  
Love that girl she was my inspiration  
Now that she's gone  
My life has no meaning at all

### 2nd Verse:

I call her on the phone hoping maybe she will see the  
light  
But all I get is no and it leaves me thinking maybe she's  
right  
So why do I waste my time  
Begging her to change her mind  
But I can't leave the past behind  
Because true love is too hard to find

### Chorus:

Because I love that girl and everything about her  
Love that girl she was my inspiration  
Now that she's gone  
My life has no meaning at all

(Instrumental)

### Chorus:

Because I love that girl and everything about her  
Love that girl she was my inspiration  
Now that she's gone  
My life has no meaning at all
