I got a note today from school
It was about some special shampoo
My mom looked so strange as she read it
Why, oh why, did I have to get it?

I get my own few days vacation
Washed my hair, my clothes, my pillow
Back at school everybody calls me names
They scream: "hey, is that boy!"
Then they run away

Someday you might get lice too
Your friends will run away from you
So be nice to people with lice

To people with lice
To people with lice
To people with lice
Be nice
To people with lice
To people with lice
