Whores

Your windows boarded up, your private lives exposed
The talk shows pump it up, lab rats diseased for show
We're doomed to use the slang, outbreak of drug
roulette
A church burned to the ground, not even noticed yet

13 Steps (To Nowhere)

Whores

A backwards swastika, the black skin riddled in lead
A Nazi Gangster Jew, it beats a dog that's dead [13
Steps To Nowhere lyrics on]
It's in to use the slang, outbreak of gun roulette
The cross slants to the side, will prove the damnedest
yet

13 Steps - Leads to nowhere

The backlash dislocates, an untimely reign of death
The wolf poked with the stick, awaits with cancerous
breath
(Leads to nowhere)

Outsiders still suppose, there's Holy streets to roam
The truth should not surprise, your homes were built on
lies
