(spoken, impossible to hear)
Modern day plague
Stronger than any and every virus, disease or sickness

Full eclipse of body emity
Anti-christian, and nocturnally alive (undead)
Buried underneath 2000 years (of histories)
Yet able to rise
Instinctively arise

Avoid the light
The sun's in sight
The undead should be sleeping
Avoid the light
That cross so bright
My fledglings dropping, weeping
Avoid the light
Overt your sight
Go underground discreetly
Avoid the light, avoid the light, avoid the light, avoid
the light

True and purely hollow
Man's ultimate enemy and predator
Wrapped into one

Spread like wings
Of damnated
Then falling into
Shaping mortal man (non-slaved)
Plasma cover
Will override (your true emotions)
The pure inversion
To guard my countless graves
Avoid the light
The sun's in sight
The undead should be sleeping
Avoid the light
That cross of light
My fledglings dropping, weeping
Avoid the light
Overt your sight

Go underground discreetly

Alone, unseen, reborn, receive

It's a battle of wills (it's a battle of wills)
In glory he'll sneak in (he shall devour)

(solo)

Avoid the light
The sun's in sight
The undead should be sleeping
Avoid the light
That cross of light
My fledglings dropping, weeping
Avoid the light
Overt your sight
Go underground discreetly
Avoid the light (4x)

(fade out...indiscernable jibberish speaking)
