I fucked your girlfriend last night
While you snored and drooled, I fucked your love

She called me daddy and I called her baby
And I smacked her ass

I called her sugar when I ate her alive 'til daylight
I slept with her all over me
From forehead to ribcage, I dripped her ass

Sometimes I thought you might be spying
Living out some brash fantasy, but no
You were knocked out
But we were all knocked out, you know, in a way...

Ah... Fuck you!
Ha ha ha ha ha ha ha!
I serve too many masters!

We didn't know you'd break this bottle open
That the magic came in
To use those jagged shards to cut our wrists and neck
And you'd do it too, you're that kind of dude

But you wouldn't know what you were doing
Because I didn't
Your girlfriend could have been a burn victim
An amputee, a dead body...
But goddamn I wanted to fuck

Ah... I'm losing what's left of my fucking mind!
I serve too many fucking masters!

I fucking told you!
I'm losing it
Fucking every fucking bit of my motherfucking mind!
You fuck!

I told you...
I told you, motherfucker...
