Gone:..

The time had finally come to kill the vein
And I'm dropping down the dirt on your grave
It might hurt so bad, but I can't feel sad
Rid of a fool like you
The wrath has just begun
The time has finally come
And it hurts so bad, and it drives you mad
Life with a blinded view (of you)

(chorus) It makes them disappear
It fills their lives with fear
When their future isn't clear
It makes them disappear

Gone:..

So the coward has up and run to be saved
But with each step taken down, you sink in your grave
It might hurt so bad, but I can't feel sad
Rid of a fool like you
(chorus)
Get the fuck down the road
(solo)
(chorus)
