CHORUS:

Somebody hurts
Somebody heals
That's just the way things are
Somebody hurts
Somebody heals
So don't let me fall apart
Somebody hurts

I can't ask you the moon
Hanging in an empty sky
If we're saving this room
Maybe there's reason why
We might lose
We might not stand
We still have the chance to try

CHORUS:

Somebody hurts
Somebody heals
That's just the way things are
Somebody hurts
Somebody heals
So don't let me fall apart
Somebody hurts
