Turbo Diesel... Turbo Diesel...

Bugatti - I saw you in a dream,
Volvo - You're running hot like steam,
Subaru - You start off like an arrow,
Volkswagen - You never gave me sorrow...

Sitting at the wheel,
My tires burn to squeal,
I know that I will soon be,
A hero in the Grand Prix...

Saturday night - I win at Le Mans,
Risking my life - I wave to my fans,
Morning collides - Champagne on ice,
Now I'm a star - Driving my car...

Ferrari - the fastest on the street,
Rover - you are my everything,
Bentley - A coffin for a king,
Mercedes - So classic and so chic...

I drive without emotion,
I calculate each curve,
I know that I will soon,
A hero in the Grand Prix...
