Two Steps

Autonomy and chemistry  
And then its silly you, and then silly me  
IÂ'm feeling good and IÂ'm feeling mighty bad  
You got to treasure before the good turns bad

Autonomy and chemistry  
And then its silly you, and then silly me  
IÂ'm feeling good and IÂ'm feeling mighty bad  
You got to treasure before the good turns bad

We take  
Two steps forward and then ten steps back  
Two steps forward and then ten steps back  
Two steps forward and then ten steps back  
Two steps forward and then ten

And yes it gets emotional  
Those feeling that come up between a boy and girl  
And all those words you said you know you didnÂ't  
mean  
The ears that heard them now are feeling very sad  
Understanding is the thing, the key  
To open locks that you never believed to even see  
And something there in your very heart  
Knows that youÂ'll both be there and youÂ'll never part

We take

Two steps forward and then ten steps back  
Two steps forward and then ten steps back  
Two steps forward and then ten steps back  
Two steps forward and then ten

Domestic bliss on a cloud named nine  
Sweet sexiness, soft caress could be be yours and  
mine  
A cloud named nine  
Two steps forward and then ten steps back  
Two steps forward and then ten steps back  
Two steps forward and then ten steps back

Two steps forward and then ten steps back

And then the girls sing

And then the boys sing

Lets sing together

Good thoughts and feelings into the love machine

Good thoughts and feelings into the love machine

Good thoughts and feelings into the love machine

Good thoughts and feelings into the love machine

WeÂ're malfunctioning like robot love

WeÂ're malfunctioning like robot love

WeÂ're malfunctioning like robot love

WeÂ're malfunctioning like robot love
