Everybody seems to have it better?
They just show the bits they only want you to see
Then I think to have it, have it better,
It's fine for all to show the bits they only want you to
see
To see.....

When things, once where, free and easy,
Abstract space time, Ancient readings,
Are all, the books, read and written
Unfolding the universe?
Let's go and see, let's go and see, go and look at it
in a book
Go and see, for yourself

Everybody wants to be as free as the wind,
As our thirst for knowledge it doth wind and bend,
Imagination captures then invites you in, to play
Then it shows the bits it only wants you to see, to see

When things, once where, free and easy,
Abstract space time, Ancient readings,
Are all, the books, read and written
Unfolding the universe?
Let's go and see, let's go and see, go and look at it
in a book
Go and see, for yourselves...!

When things, once where, free and easy,
Abstract space time, Ancient readings,
Are all, the books, read and written
Unfolding the universe?
come, let's go and see!
