Allow me to refresh you and your memory  
You are the one that started everything  
One day you want me then I thought you want out  
I can't keep up with your many swings  
I am one step ahead in your modern games  
You push me away and throw me back in  
So typical there's nothing much original  
I've seen it before i know how you think

You are free to go  
No one is holding you down  
No one is holding you down  
You are free to go  
No one is holding you down  
No one is holding you down  
You are free to go  
No one is holding you down  
No one is holding you down

You are free to go  
No one is holding you down  
No one is holding you down  
You are free to go  
No one is holding you down  
No one is holding you down

Thanks to feel
