### "United As One"

There's a different feel to everything I do  
It's all changed since the day I met you  
Whatever you've done, I've been waiting for  
I wish this had happened, happened before!  
When you take my hand and tell me that you're sure!

We can unite as one!  
'Cause every time you're near I want you more and  
more  
We can unite as one!

United as one! [x3]

Do you feel the same, do you feel what I do  
I can guess what you're thinking, I'm thinking it too!  
Whatever you've done, I've been waiting for  
I wish this had happened, happened before!  
When you take my hand and tell me that you're sure!

I want you more and more [x3]  
I want you more  
I want you more and more

United as one [x2]  
We can unite as one [x2]  
[x2]
