Let me just say I'm so happy today  
I've seen the picture from back in the days  
I've seen you are nervous when I see your face  
And I miss your sweet embrace

So come back to me and you'll see  
Will last eternally  
Oh baby we were so meant to be  
So come back to me

Chorus:

Don't say it's over untill it's over  
I'll be your lover all your life  
Don't say it's over untill it's over  
Never say never all your life

So many days, many nights, many dreams  
Still missing you and I ... how it feels  
I still remember our very last kiss  
You're the one that I always miss

So come back to me and you'll see  
Will last eternally  
Oh baby we were so meant to be  
So come back to me

Chorus:

Don't say it's over untill it's over  
I'll be your lover all your life  
Don't say it's over untill it's over  
Never say never all your life

So come back to me and you'll see  
Will last eternally  
Oh baby we were so meant to be  
So come back to me

Chorus :

Don't say it's over untill it's over  
I'll be your lover all your life  
Don't say it's over untill it's over  
Never say never all your life
