

Alex Velea "One shot"

Visit "[One shot](#)" on MotoLyrics.com

I can't give up, I can't give in
Not as long as I got one shot for your love
So give me a chance and you will see,
You will see how much I love you

I can be your falling star
Just make a wish wherever you are
I can make your dreams come true
Just Hy at me and I'll be there for you

So hold me closer, take me higher
Light my fire, love me forever
Hold me closer, take me higher
I just need one shot, I just need one shot

I can't give up, I can't give in
Not as long as I got one shot for your love
So give me a chance and you will see,
You will see how much I love you

Give me just another chance
To make our love a endless romance
Please take all my pain away (away)
I suffered to long, don't make me suffer in vain (vain, vain, vain)

So hold me closer, take me higher
Light my fire, love me forever
Hold me closer, take me higher
I just need one shot, I just need one shot

I can't give up, I can't give in
Not as long as I got one shot for your love
So give me a chance and you will see,
You wÃll see how much I love you â
