I guess we talked too long without communication
Hear the static breaking up
We 're out of time and the signal died
I hate to say we've got a hopeless situation
A second chance is slim right now

Baby, break free
We're heading on the road to destination nowhere
Break free
We're running on low, stranded out there somewhere
Take it in ? get it out
Life's an itch and now it's all about
Break free
If we let go - we might find a miracle
We need a miracle

The lines we've drawn between us
Finally made a difference
We can' t say who' s right or wrong
When your eyes are closed and the distance grows
I know, we've lost our way
But if we get some space
The world might turn us back around baby

Break free
We're heading on the road to destination nowhere
Break free
We're running on low, stranded out there somewhere
Take it in ? get it out
Life's an itch and now it's all about
Break free
If we let go - we might find a miracle
We need a miracle

Maybe I talk to much and try to be too clever
But I still need you desperately
Like the air I breathe
But something in us has to

Break free
We're heading on the road to destination nowhere

Break free
We're running on low, stranded out there somewhere
Take it in ? get it out
Life's an itch and now it's all about
Break free
If we let go - we might find a miracle
We need a miracle
Oh Yeah
Break free
Break free

Take it in ? get it out
Life's an itch and now it's all about
Break free
If we let go- we might find a miracle
We need a miracle
We might find a miracle
We need a miracle
