Fallin in love is not an easy thing with you
Whispering words looking for answers
Thoughts of dying memories are written on my soul
Can't you tell me that I'll be the one for you
Girl lets make it true for you and me
Where ever you may go I'll be your shining star

Refrain:

When I look into your eyes then I feel love at first sight
When I see your little smile I can let it go by
When I look into your soul I just cannot let go
What can I do it's love at first sight

Lay your hand on my heart just feel inside
Been touched by emotions I've tried hard to hide
Is there any way that I can feel your tenderness

Tender as our hearts they beating both the same
Without you lonely seconds it never seem to end
I hope where ever you go I'll be your shining star

Feel like I can hear the music of angels
Feel like I can play sweet music of love
Take me by the hand and lead me to heaven
We can spread our wings and fly away

When I look into your eyes then I feel love at first sight
When I see your little smile I can let it go oh no
When I look into your eyes I feel love at first sight
When I see your little smile I feel love at first sight
