"Why Me Why Now"

If someone out there's selling one-way tickets to the
edge of the world I think I'll go and buy me some
'Cause I can't even find my peace while listening to the
radio
'Cause all songs sing about us
Why me, why now?
Thought I had it figured out
But my heart won't shut down
Why me, why now?
I'll be caught red-handed
When love comes around
Wish I'd never met you I was doing fine all on my own
Till you came passing by
I wish I'd stayed home never knowing how emotions
really feel but this is real- the rules just don't apply
Why me, why now?
Thought I had it figured out
But my heart won't shut down
Why me, why now?
I'll be caught red-handed
When love comes around
Tender light slow burning consequence
Under fire, I'm under fire
Feels just like I'm sinking as I turn ahead
Under fire
