I'm in over my head and I think I like it  
Never felt so never felt so complete  
I'm right over the edge and I'm so excited  
I can see the ground beneath my feet

So don't save me now

How did I get this far in a world without your heart  
How did I live so long in a world without your love

I was on a losing streak till the day I met you  
Now I'm winning every hand  
I'm placing all my bets on love  
Its peculiar, it don't work out the way I planned

So don't bring me down

How did I get this far in a world without your heart  
How did I live so long in a world without your love

Lord I wanna stay with you but it's not easy  
Love is something that you do, I'll try my best
