Admire the Exultant King's!
Triumphal arrival!
... Kill!
Sacrificial death to give us strenght!

Brave exultant conquering warriors: We are!
Proud disciples: of death and wisdom
Idolized conquering warriors: kill!
Overbearing artwar: to destroy all!

... Kill!... Raids!

Show power without compassion!
Unmercifull Bringers of hate and death!
Idols conquerors: Raids the Land!
All infidels and scum must die!

... Kill!... Raids!
... We are the bastion of all Kings!

Brave exultant warriors: We are!
Aberrant hate Icons: we are!
Arrogant and proud eyes!
We write all Laws!

Unbroken ego of the Ancient Kings!
Admire the Exultant King's Triumphal March!

... an arrogant deployment of superb strenght!
Insultant to that bastards: We are!

... bastion of kings!... we are!
