Thundering sky above human kind  
Screaming loud for bestial holocausts  
Breaking bodies with obsidian knives  
Exultant black hand that breaks the sky

Smashing chests with stones knives  
Exultant black hand that breaks the sky  
Ripping in the altar warriors chests  
Black hands ripping beating hearts

Ripping in the altar warriors chests  
Black hands ripping beating hearts  
Smashing chests with stones knives  
Exultant black hand that breaks the sky

... blood!  
Sorcerers, death, blood, honor  
... sacrifices!  
Cosmic wisdom, human power  
... sacrifice!  
Warriors mourns, king is proud

"10, 000 scenes of death and destruction"

Painting temples with blood's sacrifice  
Crushing corpses in bestial holocausts  
Heart offerings to make the sun rise  
Black sorcerers drink blood from knives

Ripping in the altar warriors chests  
Black hands ripping beating hearts  
Smashing chests with stones knives  
Exultant black hand that breaks the sky
