I know what you're doing hey
You're not fooling anyone
You came here for the drinks
But you stayed here for the love
And I know what you're doing hey
You're not fooling anyone
It's never been about his hugs
It is about his touch

So put your hands upon your hips
Sway from side to side
And you won't keep his attention
But you can keep em for a while
So put your hands upon your hips
Sway from side to side
And you won't keep his attention
But you can keep em for the night
You can keep em for the night

He's got those wild come here of eyes
He'll fool you every time
If you can stand you ground girls
You'll make it out just fine
He's got those wild come here of eyes
He'll fool you every time
If you can keep your distance girls
You'll make it through the night
[or You'll make it out alive - live version of the song]

So put your hands upon your hips
Sway from side to side
And you won't keep his attention
But you can keep em for a while
So put your hands upon your hips
Sway from side to side
And you won't keep his attention
But you can keep em for the night
You can keep em for the night

So put your hands upon your hips
Sway from side to side

And you won't keep his attention
But you can keep em for a while
So put your hands upon your hips
Sway from side to side
And you won't keep his attention
But you can keep em for the night
You can keep em for the night

So put your hands upon your hips
Sway from side to side
And you won't keep his attention
But you can keep em for a while
So put your hands upon your hips
Sway from side to side
And you won't keep his attention
But you can keep em for the night
You can keep em for the night
