Where have all the flowers gone?  
I was meant to bloom  
When did all the leaves fall off?  
I stand here in gloom

Don't let me fall back to the winter I once knew  
But let me spring into the summer we've had before  
What's a year anyway if it's not with you, I wonder?

I want all my buds to burst  
And I want to carry grapes  
But autumn's got a hold on me  
Anxious for what's coming

Don't let me fall back to the winter I once knew  
But let me spring into the summer we've had before

What's a year anyway if it's not with you, I wonder?  
What's a year anyway if it's not with you, I wonder?
