"I Want This Night To Be Over"

A curtain hangs before the light
A heavy cloud that dims the sunlight

Could it be that it's caused by me?
Then show me I want to see
You burn the covering curtain
And blow away the clouds
I'm tired of the dusky light
I want this night to be over

Like twisted laughter to my ear
My lack of trust has led into fear

Could it be that it's caused my me
Then show me I want to see
You burn the covering curtain
And blow away the clouds
I'm tired of the dusky light
I want this night to be over

To be over...

I'm willing, I'm willing to change...
